

# Griot's Garage BOSS Foaming System

Dilution label pack

Standard 20:1 ratio for both the 32 oz bottle and 33.8 oz reservoir.

## Use cases & bottle math

### Foam cannon pre-soak

Ratio: 20:1 (product : water)

- 32 oz bottle !' Product 45.1 mL (1.52 oz) + Water 901.3 mL (30.48 oz)

*Notes: Shake gently to combine before pressurising.*

### BOSS 33.8 oz reservoir

Ratio: 20:1 (product : water)

- 33.8 oz BOSS jar !' Product 47.6 mL (1.61 oz) + Water 952 mL (32.19 oz)

*Notes: Pour concentrate first, then add water to the fill line.*

## Safety reminders

### Avoid:

- Exceeding manufacturer ratios on delicate wraps

### Caution:

- Rinse concentrate residue from caps and metering tips after each use.

### PPE:

- Gloves when handling concentrate
- Eye protection around pressurised foam
